

Columbus, OH, October, 2008:

On Sunday, October 19th 3SG President, **Nanda Nair**, seen giving the thumbs up to the left, along with 3SG Associate, **Craig Neavill**, seen running down the home stretch below and to the right, successfully completed the 26 mile Columbus Marathon.

A group of runners started by Nanda and a friend, known as 2FGR (two fat guys running) had been training for the marathon for months. 2FGR grew from two people to just below 50 in the few months preceding the marathon. All of the conditioning paid off as they were able to share the exhilarating moment of crossing the finish line with one another. 2FGR was co-sponsored by Panera Bread and Prime Engineering.
